

Create an online learning community tailored for the library staff in your region.

With the **Community Partner Program** from WebJunction you can deliver a comprehensive staff training and development service that meets local needs and still saves time and resources.

WebJunction's Community Partner Program brings our courses, resources and community together for fast, customized support to your region.

FAST

You can be up and running in no time. Simply take the existing WebJunction courses and content, and retool them to suit your needs.

CUSTOMIZED

- Design your own catalog of competencies and courses. Choose from more than 600 ready-made courses on customer service, computer technology, library management, basic library skills, all selected specifically to meet the needs of library staff—or add your own courses to the mix.
- Choose which topics from the WebJunction.org site are relevant for your community, with the option to share more than 4,000 free content resources with your users.
- Create and instantly publish your own content, without the need to learn a separate publishing tool.

SUPPORTIVE

- All of our Community Partners share their content, tips and techniques, and success stories with one another, so no one has to reinvent the wheel.
- Staff can learn at their desks, but won't learn alone. Discussion boards, groups and professional networking tools allow learners to get the help and advice they need to be successful in their work.
- WebJunction provides consultants, trainers and dedicated support to help you successfully launch and grow your learning community.

Our community partners include library organizations in Arizona, British Columbia, Connecticut, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Maine, Minnesota, Missouri, North Carolina, Ohio, Pennsylvania, Rhode Island and Washington.

ABOUT WEBJUNCTION

Since 2003, WebJunction has helped more than 40,000 library staff build their job skills by partnering with library organizations to deliver cost-effective staff training and development programs. Our vision is to be the place where the worldwide library profession gathers to build the knowledge, skills and support we need to power relevant, vibrant libraries.
