

The Anthropology *Plus* Database

Anthropology *Plus* is the world's most comprehensive, focused index of bibliographic materials from the late 19th century to today, covering the fields of anthropology, archaeology and interdisciplinary studies. Available only from OCLC, Anthropology *Plus* unites two premier indexes: Harvard University's Anthropological Literature database and the United Kingdom's Anthropological Index (Royal Anthropological Institute). These sources provide a uniquely broad and rich resource for education and research in anthropology and related fields.

Key features

An easy-to-use interface: The OCLC® FirstSearch® interface accommodates searchers of all skill levels—basic, advanced and expert. The interface is available in many languages (English, French, Spanish, Japanese, Korean, and traditional and simplified Chinese), and it displays the accents and diacritics in non-English records.

Powerful search capabilities: Use field-specific indexing for word and exact-phrase searching, and browse all of the database indexes. Users can also limit their searches by year and other standard search limits.

Multilingual resources: Anthropology *Plus* includes entries in many languages, particularly English, Germanic, Slavic, Romance and selected Scandinavian languages. Many titles in original scripts are translated into English; many in Slavic languages are transliterated from Cyrillic.

Links to full-text content: Anthropology *Plus* provides links to Electronic Collections Online, Wilson Select Plus and other FirstSearch full-text databases when access has been purchased and enabled. Library staff may also enable linking from FirstSearch citations to other full-text resources when they enable linking to a local OpenURL server.

Key advantages:

Outstanding breadth and depth: Anthropology *Plus* offers worldwide indexing of all core periodicals, in addition to lesser-known journals, from the late 19th century to today. It includes citations for journal articles, reports, commentaries, edited works and obituaries.

High value for interdisciplinary research: Covering social, cultural, physical, biological and linguistic anthropology, plus ethnology, archaeology, folklore and material culture, Anthropology *Plus* meets the needs of wide-ranging scholarly investigations.

Links to library holdings in WorldCat: Anthropology *Plus* users need to know where to find the resources their searching uncovers, and OCLC's WorldCat® database helps them do that in several ways. They can view a list of libraries (or library groups) in your region or state that own specific items. They can view or search your library's OPAC to access local holdings information. And they can view detailed holdings information in the OCLC Local Holdings Maintenance service.

Ordering and more information:

To order an annual subscription to Anthropology *Plus* and for more information, contact your OCLC regional service provider or OCLC Library Services representative (1-800-848-5878 or libservices@oclc.org). Learn more: www.oclc.org/firstsearch/content/.
