

## The Russian Academy of Sciences Bibliographies

The Russian Academy of Sciences Bibliographies provides a unique and rich source of information for students and specialists in Slavic studies and social sciences. Covering more than 12,500 periodicals published primarily in Russia, the republics of the former Soviet Union and countries in Eastern Europe, it cites and abstracts books, manuscripts, dissertations and articles. The database includes nearly 1.3 million records and covers 1980 to the present.

### Key features

**An easy-to-use interface:** The OCLC® FirstSearch® interface accommodates searchers of all skill levels—basic, advanced and expert. The interface is available in many languages (English, French, Spanish, Japanese, Korean, and traditional and simplified Chinese, and it displays the accents and diacritics in non-English records.

**Powerful search capabilities:** Use field and specific indexing for word and exact-phrasе searching, and browse all of the database indexes. Users can also limit their searches by year and other standard search limits.

### Ordering and more information

To order an annual subscription to the Russian Academy of Sciences Bibliographies and for more information, contact your OCLC regional service provider or OCLC Library Services representative at 1-800-848-5878 or [libservices@oclc.org](mailto:libservices@oclc.org). Learn more: [www.oclc.org/firstsearch/content/](http://www.oclc.org/firstsearch/content/).

### Key advantages

**Broad subject coverage:** The Russian Academy of Sciences Bibliographies covers a broad range of subject areas, including: anthropology, archaeology, area studies, demography, economics, history, international relations, law, linguistics, literary criticism, philosophy, political science, religion, scientific policy and sociology.

**Essential for serious research:** Critical to the work of specialists and a fundamental reference for students, this database supports broad, scholarly investigation into Slavic, Russian and Eastern European cultures. Subject access is bilingual in both English and Russian, including Cyrillic script.
