

LexisNexis Scholastic

Description

- a. This version of LexisNexis® is specifically designed to provide high school students with Web-based, desktop access to authoritative research sources. 24/7 customer support is provided for school library media center staff and school technical support staff. LexisNexis Scholastic Edition includes major U.S. and international newspapers; leading magazines, wire services and broadcast news transcripts; statistics and historical information; non-English language publications; and Federal and state case law, codes and legislation, both enacted and pending.
- b. LexisNexis® Scholastic Edition is the "younger sibling" of the LexisNexis Academic Research service, accessible to nearly seven million students and faculty members at more than 1,600 colleges and universities in the U.S. It provides users experience searching for vital source material using the kind of technology students will invariably encounter as they progress to a college or university. Content modules allow flexible subscription options and competitive pricing based on enrollment. Modules include:
 - i. News
 - ii. Legal Research
 - iii. Legislation
 - iv. Statistics
 - v. Access to African American Studies
 - vi. Access to Women's Studies
 - vii. Access to Presidential Studies

Features

- a. Prepare your students for tomorrow's college-level research today.
- b. LexisNexis Scholastic Edition provides hands-on experience with the same type of Web-based research tools they will encounter at colleges and universities. Coverage includes these modules:
 - i. News
 1. Students receive access to up-to-the minute breaking news stories, as well as the most comprehensive news archive available through a rich variety of authoritative sources.
 - ii. Legal Research
 1. Provides authoritative answers to questions on U.S. Federal and state laws.
 - iii. Legislation
 1. Students can easily follow the Federal and state legislative process, tracking both bills under consideration and bills passed. Includes facts about members of Congress, voting records, and much more.
 - iv. Statistics

1. Find statistics fast from up to 130,000 indexed tables with PowerTables™ functionality. Sources include federal, state, and private data, plus new international intergovernmental tables.
- v. Access to African American Studies
 1. Students get fast, convenient Web access to essential primary and secondary source material on the African American experience, from the colonial period to the present day.
- vi. Access to Women's Studies
 1. Explore the personal and institutional forces that helped shape the lives of American women in the 19th and 20th Centuries.
- vii. Access to Presidential Studies
 1. Students find key primary and secondary Presidential sources easily with this module, which includes inaugural addresses and state of the Union speeches of every U.S. President from George Washington to George W. Bush.
