

LexisNexis Statistical Base

Description

- a. Enjoy fast and easy access to statistics produced by federal agencies, states, and intergovernmental organizations with advanced PowerTables™ functionality.
- b. LexisNexis® Statistical provides campus-wide desktop access to statistics for research. It now features PowerTables, the shortcut to finding statistics online. Instead of wading through large documents, go directly to the statistics you need by conducting searches based on the data contained in the tables, assigned subject descriptors, or bibliographic information. Every table is linked to an abstract, which in turn contains a link to the full-text source document.
- c. LexisNexis Statistical enables easy access to statistics produced by the U.S. government, major international intergovernmental organizations, professional and trade organizations, commercial publishers, independent research organizations, state government agencies, and universities. Optional modules can be added to expand the number of PowerTables and to allow searching of CIS abstracts of statistical publications.

Features

- a. Campus-wide desktop access to statistics make research faster and more complete
- b. LexisNexis® Statistical provides students and other researchers with Web-based access to statistics from all over the world. Flexible interface design makes targeted searches quicker and easier than ever.
- c. Includes over 30,000 individually indexed statistical tables. Most of the reports covered in this edition are statistical compendia and other major statistical compilations issued by U.S. Federal agencies, the states, and intergovernmental organizations (IGOs).

Pricing/Subscriptions

- a. LexisNexis® Statistical is available in a variety of pricing options to suit academic libraries regardless of size.
