

.863 3

Molecular structure

Number built according to instructions under 572.5–572.8

Class here DNA topology, double helix, genetic code; chromosome, gene, genome mapping; base, gene, nucleotide sequences

Class amino acid sequence in 572.633

*For use of DNA fingerprinting in biometric identification, see 006.2482; for base and nucleotide sequence in RNA, see 572.8833*

**573**

## **Specific physiological systems in animals, regional histology and physiology in animals**

Class here comprehensive works on specific physiological systems

Except for modifications shown under specific entries, add to each subdivision identified by \* as follows:

Class biometric identification based on physiological aspects in 006.2483; class comprehensive works on physiological systems in 571

*For specific physiological systems in plants, see 575; for specific physiological systems in humans, see 612; for specific physiological systems in domestic animals, see 636.0892*

*See Manual at 571–573 vs. 610*
