INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of OCLC Online Computer Library Center, Inc.:

We have audited the accompanying consolidated financial statements of OCLC Online Computer Library Center, Inc. and its subsidiaries (the "Company"), which comprise the consolidated balance sheets as of June 30, 2014 and 2013, and the related consolidated statements of revenues, expenses, and corporate equity and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of OCLC Online Computer Library Center, Inc. and its subsidiaries as of June 30, 2014 and 2013, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED JUNE 30, 2014 AND 2013

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PROCEDURES

OCLC Online Computer Library Center, Inc. (OCLC or the "Corporation"), is a nonprofit corporation organized to establish, maintain, and operate an international computerized network of bibliographic cataloging services for libraries and to promote the evolution of library use. The accumulated excess of revenues over expenses (corporate equity) cannot be distributed to the members. OCLC's corporate equity is unrestricted. In the event of dissolution, the Board of Trustees is to adopt a plan for distribution of remaining assets that is consistent with the purpose of OCLC. OCLC generally provides services to its members on a contract basis. The significant accounting policies of OCLC and its subsidiaries are set forth below:

Principles of Consolidation — The consolidated financial statements include the accounts of OCLC and its wholly owned for-profit subsidiaries, OCLC Information Distribution, Inc. (OID), and OCLC EMEA B.V. and subsidiaries (OCLC EMEA). Operating revenues for OCLC's wholly owned for-profit subsidiaries were \$48,744,600 and \$43,333,000 and operating expenses were \$48,926,100 and \$41,812,500 for the years ended June 30, 2014 and 2013, respectively. Intercompany transactions have been eliminated in consolidation. See Note 7 regarding the acquisition of Huijsmans En Kuijpers Automatisering B.V. (HKA).

Cash and Cash Equivalents — All highly liquid debt investments with an original maturity of three months or less at the time of purchase are considered cash equivalents and are stated at cost, which approximates market. Cash is primarily held in two banks and is invested into money market funds nightly.

Investments — Mutual funds, other pooled investments, government securities, corporate notes and bonds, and equity securities are stated at fair value. Fair values for these investments are based on market quotes or as calculated by third-party administrators. Fair value changes are reported as unrealized gains and losses and recorded within the changes of corporate equity. Realized gains and losses are calculated based on the first in, first out (FIFO) method. Realized gains and losses and other-than-temporary declines in market value from original cost are included in investment income in other income (expense).

Revenue Recognition — Member service revenues are recognized at the time services are provided and include services to locate, acquire, catalog, lend, and preserve library materials. Software license and consulting revenues are recognized at the time software is shipped and services are provided or according to contract terms in the case of customized installations and system maintenance billings. Certain revenues to acquire access to reference content on behalf of libraries are recorded net of associated database acquisition costs. Unearned revenue and advance subscription payments represent monies advanced to OCLC by members, participating libraries, and certain independent regional service providers in the United States and are recognized as revenues when the service is provided. Transaction based member participation credits (2014 — \$11,816,900; 2013 — \$11,100,700) are issued to libraries for services provided to OCLC for the benefit of the cooperative and are recorded as an expense rather than a reduction of revenue.

Use of Estimates — The preparation of these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires, in certain instances, the use of estimates. Actual results could differ from these estimates.

Depreciation and Amortization — Depreciation is provided using the straight-line method at rates based on the estimated useful lives of the equipment and improvements (from 3 to 20 years) and buildings (from 30 to 40 years). Costs incurred in connection with the issuance of debt are amortized and accreted using the effective interest method over the terms of the respective debt.

Software and Goodwill — The cost of purchased software is capitalized and amortized using the straight-line method over the estimated economic useful lives (from 3 to 15 years). OCLC capitalizes the costs associated with purchased databases, enhancements, and certain internal use software costs once certain criteria are met. These costs are amortized using the straight-line method (from 3 to 15 years). At each consolidated balance sheet date, management compares the carrying value of capitalized software to the net realizable value of the software, and the carrying value in excess of future discounted cash flows is expensed currently.

Goodwill represents the excess of cost over fair value of assets acquired. Net book value of goodwill was \$5,236,300 and \$2,630,200 at June 30, 2014 and 2013, respectively. At June 30, 2014 and 2013, no goodwill impairment was deemed to exist.

Research and Development — Research and development costs (principally salaries and related fringe benefits), approximating \$22,772,900 and \$23,284,200 for fiscal years 2014 and 2013, respectively, are charged to operations as incurred.

Income and Other Taxes — OCLC is tax exempt in the United States of America under the appropriate sections of the Internal Revenue Code and various sections of state and local tax statutes, and accordingly, no provision for federal, state, or local income taxes is currently required for its operations. OCLC EMEA and OID are not exempt from federal, state, local, or foreign income taxes.

The asset and liability method is used for financial accounting and reporting of income taxes. Deferred income tax assets and liabilities are computed annually for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted laws and rates applicable to the periods in which differences are expected to affect taxable income. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

Accounting Standards Codification (ASC) 740-10, *Income Taxes*, addresses the accounting for uncertainties in income taxes recognized in an enterprise's financial statements and prescribes a threshold of "more-likely-than-not" for recognition of tax positions taken or expected to be taken in a tax return. ASC 740-10 also provides related guidance on measurement, classification, interest and penalties, and disclosure. OCLC evaluated its tax positions at June 30, 2014 and 2013, in accordance with ASC 740-10. Based on this evaluation, OCLC determined that there was no material impact to the Corporation's consolidated financial statements as a result of the adoption of ASC 740-10.

Foreign Currency Translation — The local currency has been designated as the functional currency for operations in Australia, Canada, France, Germany, the Netherlands, Switzerland, and United Kingdom. Income and expense items are translated at the average monthly rate of exchange. Assets and liabilities are translated at the rate of exchange on the consolidated balance sheet dates with the resultant translation gains or losses included as a separate component of corporate equity. Corporate equity

includes net cumulative translation gains of \$8,864,500 and \$8,797,400 at June 30, 2014 and 2013, respectively.

Self-Insurance Programs — OCLC uses various self-insurance plans for certain of its medical insurance programs in the United States of America. The associated liability has been recorded in the consolidated financial statements based on information currently available as to the estimated ultimate cost for incidents prior to the consolidated balance sheet dates. Losses in excess of certain limits are insured with third-party insurance companies.

2. INVESTMENTS

In accordance with ASC 958, *Not-For-Profit Entities*, investments are carried at their fair values with related unrealized gains and losses on the portfolio reflected in the change in net equity. Realized gains and losses are included in investment income.

OCLC invests available cash in major banks, mutual funds, other pooled investments, federal, state, and local government obligations and investment grade debt, and equity securities. Market risk is reduced by investing funds in maturities that match anticipated short- and long-term cash needs and by investing in diversified industries and markets, both domestic and international. All investments are held in safekeeping by custodians and are reflected on the consolidated balance sheets as cash equivalents, mutual funds, other pooled investments, government securities, corporate notes and bonds, and equity securities.

Realized gains and losses related to investments are recorded using the FIFO method. Net unrealized gains on the portfolio totaled \$9,906,100 and \$19,987,500 at June 30, 2014 and 2013, respectively. The following schedule details investment returns for the years ended June 30, 2014 and 2013:

	2014	2013
Dividends, interest, and other income Net realized gains Other-than-temporary impairment	\$ 13,236,300 28,592,400	\$ 5,250,200 9,759,600 (4,581,200)
Investment income	41,828,700	10,428,600
Net change in unrealized (loss) gain on investments	(10,081,400)	8,147,500
Total net investment gain	\$ 31,747,300	\$18,576,100

OCLC reviews its portfolio for other-than-temporary impairment each fiscal year end. The investment securities portfolio is generally evaluated for other-than-temporary impairment with consideration given to: (1) the length of time and extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issue, and (3) the intent and ability to retain a security for a period of time sufficient to allow for any anticipated recovery in fair value.

Debt securities held by OCLC are recorded in accordance with the provisions of ASC 320, *Investments* — *Debt and Equity Securities*. For those debt securities for which the fair value of the security is less than its amortized cost and OCLC does not intend to sell such security and it is not more likely than not that it will be required to sell such security prior to the recovery of its amortized cost basis less any credit losses, ASC 320 requires that the credit component of the other-than-temporary

impairment losses be recognized in investment income (loss) while the noncredit component is recognized in corporate equity.

The following table of temporarily impaired securities shows the gross unrealized losses and fair value, aggregated by investment category and length of time those securities have been in a continuous unrealized loss position, at June 30, 2014.

			2	2014		
	Less Than	12 Months	12 Mont	ths or More	То	tal
Description of Temporarily Impaired Securities	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Mutual funds Other pooled investments	\$22,514,600 16,727,800	\$(461,800) (290,800)	\$ -	\$ -	\$22,514,600 16,727,800	\$(461,800) (290,800)
Total temporarily impaired securities	\$39,242,400	\$(752,600)	<u>\$ - </u>	<u>\$ - </u>	\$39,242,400	<u>\$(752,600)</u>

At June 30, 2014, the Corporation owned the following securities that had unrealized losses: eight mutual fund investment lots and one other pooled investment.

At June 30, 2013, OCLC was repositioning its investment portfolio and does not intend to hold its securities for a period of time sufficient to allow for any anticipated recovery in fair value and has deemed any losses at June 30, 2013, to be other than temporary and therefore has no securities temporarily impaired.

At June 30, 2014, there were deemed no other-than-temporary impairment losses. The other-than-temporary impairment losses for the year ended June 30, 2013, are as follows:

	2013
Equity securities	\$(3,286,100)
Mutual funds	(1,219,300)
Government securities	(50,200)
Corporate notes and bonds	(25,600)
Total	\$ (4,581,200)

2013

The following summarizes the general rationale, by investment type, for the recognition of impairments as either unrealized losses or other-than-temporary impairments at June 30, 2014 and 2013:

Mutual Funds — At June 30, 2014, all impairments were considered temporary given that both the duration and extent of the impairments were not significant considering OCLC's ability and intent to hold those investments for a reasonable period of time sufficient for an anticipated recovery of fair value. At June 30, 2013, due to the repositioning of the investment portfolio and plan to sell, all impairments were considered other than temporary.

Other Pooled Investments — At June 30, 2014, all impairments were considered temporary given that both the duration and extent of the impairments were not significant considering OCLC's ability and intent to hold those investments for a reasonable period of time sufficient for an anticipated recovery of fair value. OCLC held no other pooled investments at June 30, 2013.

Equity Securities — Impairments were generally considered other than temporary on those securities that had been in a continual loss position for over one year or for those securities that have deterioration

of value in excess of any anticipated recovery in the near term. At June 30, 2013, due to the repositioning of the investment portfolio and plan to sell, all impairments were considered other than temporary. OCLC held no equity securities at June 30, 2014.

Corporate Notes and Bonds — At June 30, 2013, due to the repositioning of the investment portfolio and plan to sell, all impairments were considered other than temporary. OCLC held no corporate notes and bonds at June 30, 2014.

Government Securities — At June 30, 2013, due to the repositioning of the investment portfolio and plan to sell, all impairments were considered other than temporary. OCLC held no government securities at June 30, 2014.

The following table presents the rollforward of the balance of credit-related impairment losses on debt securities held at June 30, 2013:

	2013
Balance — beginning of period Reductions for securities sold during the period	\$ (46,400) 46,400
Balance — end of period	\$

0040

3. FIXED ASSETS

Fixed assets at June 30, 2014 and 2013, include the following:

	2014	2013
Land and improvements	\$ 11,856,100	\$ 11,856,100
Buildings and improvements	78,030,200	73,993,700
Computer and telecommunications equipment	29,280,100	27,688,900
Databases	84,595,000	81,446,400
Intangibles including software	132,460,900	121,488,100
Goodwill	23,384,000	21,468,800
Office furniture and equipment	19,763,100	20,256,400
Total	379,369,400	358,198,400
Less accumulated depreciation and amortization	247,974,000	245,403,300
Fixed assets — net	\$131,395,400	\$112,795,100

Software development costs, related to internal use software, of \$15,370,000 and \$13,356,200 were capitalized in 2014 and 2013, respectively.

Database enhancement costs of \$2,607,000 and \$2,597,000 were capitalized in fiscal year 2014 and 2013, respectively, and are included in databases.

Operating Leases — Certain buildings and equipment are rented under operating leases. Rental expense for all leases was \$3,354,000 and \$2,925,900 for fiscal years 2014 and 2013, respectively. Future minimum lease payments under existing noncancelable lease commitments are as follows:

Fiscal Years Ending June 30	
2015	\$2,348,100
2016	1,464,700
2017	978,800
2018	523,400
2019	230,500
Thereafter	468,000
Total	\$6,013,500

4. LONG-TERM DEBT AND CAPITAL LEASES

Long-term debt and capital leases at June 30, 2014 and 2013, consisted of the following:

	2014	2013
Long-term debt and line of credit Capital leases	\$ 18,900,400 40,890,500	\$ - 50,211,300
Subtotal	59,790,900	50,211,300
Less current maturities	(22,147,600)	(9,260,000)
Total	\$ 37,643,300	\$40,951,300

Long-Term Debt — On October 1, 2013, OCLC EMEA entered into a bank loan for the purposes of financing the purchase of HKA. The 6,500,000 euro loan has a fixed interest rate of 3.1% until October 1, 2016. The loan is due based on the following schedule: 650,000 euros on October 1, 2014; 1,300,000 euros on April 1, 2015 and 2016; 1,600,000 euros on April 1, 2017; 650,000 euros on October 1, 2017; and 1,000,000 euros on April 1, 2018. The loan balance outstanding on June 30, 2014, was 6,500,000 euros (\$8,900,400). The bank loan is secured by the shares and capital of HKA, mortgage on a building, business equipment, and accounts receivable of OCLC EMEA.

Capitalized Leases — OCLC leases office, computer equipment, and autos with an option to purchase the equipment at a nominal cost at the termination of the lease. The outstanding balance was \$116,000 at June 30, 2013. There was no balance at June 30, 2014.

On May 23, 2008, the Corporation entered into a seven-year tax-exempt lease agreement through Columbus-Franklin County Finance Authority for \$20,000,000 with an effective interest rate of 3.22%. The lease is due quarterly in equal principal and interest installments of \$800,700 beginning August 23, 2008, and has a balance outstanding of \$3,139,200 and \$6,179,400 at June 30, 2014 and 2013, respectively. The proceeds were used to finance the acquisition and installation of office systems and equipment, computers, servers, related peripheral equipment and software, and bibliographic and other information databases.

On August 10, 2009, the Corporation entered into a ten-year tax-exempt lease agreement through Columbus-Franklin County Finance Authority for \$30,000,000 with an effective interest rate of 4.0773%. The lease is due monthly in equal principal and interest installments of \$304,800 beginning September 10, 2009, and has a balance outstanding of \$17,016,100 and \$19,915,900 at June 30, 2014 and 2013, respectively. The proceeds were used to refund the remaining portion of the 1998 Franklin County revenue bonds and to finance the acquisition and installation of office systems and equipment, computers, servers, related peripheral equipment and software, and bibliographic and other information databases.

On June 19, 2013, the Corporation entered into a seven-year tax-exempt lease agreement through Columbus-Franklin County Finance Authority for \$24,000,000 with an effective interest rate of 1.615%. The lease is due monthly in equal principal and interest installments of \$302,400 beginning July 19, 2013, and has a balance outstanding of \$20,735,200 and \$24,000,000 at June 30, 2014 and 2013, respectively. The proceeds were used to finance the acquisition and installation of office systems and equipment, computers, servers, related peripheral equipment and software, real property renovations and improvements, and bibliographic and other information databases.

Cost and accumulated depreciation of the leased equipment included in 2014 and 2013 fixed assets are as follows:

	2014	2013
Equipment, software, and databases Less accumulated depreciation	\$56,314,800 28,675,700	\$57,476,400 25,635,900
Capitalized leased assets — net	\$27,639,100	\$31,840,500

The aggregate maturities of the revenue bonds, other long-term debt, and the capital lease obligations are as follows:

Fiscal Years Ending June 30	
2015	\$12,147,600
2016	8,297,800
2017	8,894,200
2018	9,154,400
2019	7,093,500
2020 and later	4,203,400
Total	\$49,790,900

5. BANK LINE OF CREDIT

An unsecured revolving line of credit with a bank in the United States provided for total borrowings of up to \$15,000,000 during fiscal years 2014 and 2013. Under the terms of the agreement, interest on amounts borrowed is payable at an effective interest rate equal to 1.35% above the London Interbank Offered Rate (LIBOR) at June 30, 2014 and 2013 (total of 1.5% for both years). During fiscal years 2014 and 2013, no borrowings were made under such line of credit. The agreement expires December 31, 2014.

Effective January 3, 2012, OCLC obtained an additional unsecured revolving line of credit with a bank in the United States for \$15,000,000. Under the terms of the agreement, interest on amounts borrowed is payable at an effective interest rate equal to LIBOR, plus 0.75% at June 30, 2014 and 2013 (total of 0.9% for both years). During fiscal year 2014, a total of \$10,000,000 was borrowed and outstanding at June 30, 2014, and is included in current portion of long-term debt and capital leases on the consolidated balance sheet. During fiscal year 2013, a total of \$5,000,000 was borrowed and subsequently repaid. The agreement expires January 31, 2016.

On May 19, 2011, OCLC EMEA modified its secured revolving line of credit with a bank for a total of 3,000,000 euros. The line of credit declines quarterly by 125,000 euros beginning April 1, 2012, through January 1, 2015. The line of credit available was 2,375,000 euros (\$3,090,000) at June 30, 2013. During fiscal year 2013, the bank has reserved 329,100 euros (\$428,100) of the available line of credit to guarantee payment of certain operational activities. Under the terms of the agreement, interest on amounts borrowed is payable at an effective interest rate equal to 1.70% above the three-month Europe Interbank Offered Rate (EURIBOR) at June 30, 2013 (total of 1.91%).

On October 1, 2013, OCLC EMEA modified its secured revolving line of credit with a bank for a total of 2,250,000 euros. The line of credit declines quarterly by 125,000 euros beginning April 1, 2014, through October 1, 2016. The line of credit available was 2,125,000 euros (\$2,909,800) at June 30, 2014. Under the terms of the agreement, interest on amounts borrowed is payable at an effective interest rate equal to 1.7% margin above the three-month EURIBOR at June 30, 2014 (total of 2.01%). The margin is reconsidered by the bank each year.

During fiscal year 2014, a total of 2,200,200 euros (\$2,986,100) was borrowed and subsequently repaid. During fiscal year 2013, a total of 3,822,000 euros (\$4,946,000) was borrowed and subsequently repaid.

6. EMPLOYEE BENEFIT PLANS

A noncontributory defined contribution retirement plan covers all OCLC employees in the United States ("domestic") who have completed two years of service. Voluntary contributory defined contribution employee savings plans cover all full-time domestic OCLC employees. In 2003, OCLC established a 457(b) nonqualified voluntary contributory defined contribution savings plan for key domestic employees with no defined waiting period. The cost of these plans (included in salaries, wages, and related fringe benefits) was \$6,101,800 and \$6,077,300 for fiscal years 2014 and 2013, respectively.

In 1998, OCLC established a nonqualified voluntary contributory savings plan for key domestic employees and Board of Trustee members. OCLC holds investment assets, recorded at fair value, purchased with the participants' voluntary contributions. Due to a change in U.S. federal tax regulations, the plan was frozen effective May 1, 2002. The assets and liabilities under the plan were \$3,816,100 and \$3,484,700 (reflected in other assets and other noncurrent liabilities) at June 30, 2014 and 2013, respectively.

Operations outside the United States, including the OCLC Canada division and OCLC EMEA, maintain or participate in separate retirement and defined contribution pension plans. Total expenses recorded under these plans were \$1,364,700 and \$1,244,800 in fiscal years 2014 and 2013, respectively.

OCLC maintains a voluntary contributory plan providing postretirement health care and noncontributory postretirement life insurance coverage for U.S. employees. OCLC's U.S. employees meeting certain age and service requirements at the time of their retirement are eligible to participate. OCLC recognizes the cost of postretirement medical and life benefits as the employees render service. These benefits are funded by OCLC when incurred.

Relevant postretirement benefit information as of June 30, 2014 and 2013, is summarized as follows:

	2014	2013
Reconciliation of benefit obligation: Benefit obligation at the beginning of the plan year Service cost Interest cost Benefits paid Actuarial (gain) loss Assumption change	\$ 8,668,800 561,000 437,900 (353,700) (669,000) 865,500	\$ 7,044,000 474,000 291,400 (169,500) 1,546,200 (517,300)
Benefit obligation at the end of the plan year	\$ 9,510,500	\$ 8,668,800
Net postretirement benefit cost: Service cost Interest cost Net amortization Total	\$ 561,000 437,900 (1,071,200) \$ (72,300)	\$ 474,000 291,400 (1,528,000) \$ (762,600)
	2014	2013
Amounts included in equity: Unrecognized prior service credit Unrecognized net gain Total	\$ (539,500) (9,572,900) \$(10,112,400)	\$ (658,600) (10,721,500) \$(11,380,100)
Reconciliation of unrecognized net gain: Unrecognized net gain at the beginning of the year Actuarial (gain) loss Liability loss (gain) due to change in assumptions Amortization amount	\$(10,721,500) (669,000) 865,500 952,100	\$(13,159,300) 1,546,200 (517,300) 1,408,900
Unrecognized net gain at the end of the year	\$ (9,572,900)	<u>\$(10,721,500)</u>
Benefit obligations recognized in equity: Net loss Amortization of prior service credit Amortization of gain	\$ 196,500 119,100 952,100	\$ 1,028,900 119,100 1,408,900
Total recognized in equity	\$ 1,267,700	\$ 2,556,900

Amounts recognized on the consolidated balance sheets as of June 30, 2014 and 2013, were as follows:

	2014	2013
Accrued liabilities — current Other noncurrent liabilities	\$ 154,000 _9,356,500	\$ 132,000 8,536,800
Total amount recognized	\$9,510,500	\$8,668,800

Actuarial assumptions used in determining these amounts included a weighted-average discount rate of 4.51% and 5.09% at June 30, 2014 and 2013, respectively, and an annual increase in medical expense of 8.50%, declining to 5.0% in 2022 and thereafter.

The following table summarizes the amounts in equity expected to be amortized and recognized as a component of net periodic benefit cost in 2015:

Net gain	\$ (791,700)
Prior service credit	_ (119,100)
Total	\$ (910,800)

The following table presents estimated future benefit payments for the next 10 fiscal years:

June 30	
2015	
2016	

 2017
 227,000

 2018
 242,000

 2019
 263,000

 2020–2024
 1,925,000

\$ 154,000 204,000

An agreement with a former officer provides for certain benefit payments to the employee and spouse, which commenced upon retirement. After the officer's death, payments continue for the surviving spouse. At June 30, 2013, OCLC had a liability accrued of \$1,285,900 for the present value of the estimated future payments under this agreement. At June 30, 2014, this liability was reduced to \$0 after the spouse's death during fiscal year 2014.

7. ACQUISITION OF HKA

Fiscal Years Ending

On October 1, 2013, OCLC PICA B.V. purchased HKA, a Dutch library systems provider, for 8,519,300 euros (\$11,523,200 at October 1, 2013). The acquisition was accounted for by the purchase method of accounting. The purchase price was allocated to the assets acquired, which primarily consisted of software and customer list of 8,715,700 euros (\$11,788,900), and the liabilities assumed, which primarily consisted of deferred tax liability of 2,062,500 euros (\$2,789,800), based on their fair values at the date of acquisition. Goodwill, representing the excess of cost over fair value of assets acquired, of 1,866,100 euros (\$2,524,100 at October 1, 2013) was recorded and included in fixed assets. HKA's operations, subsequent to the date of the purchase, are included in the consolidated financial statements for the year ended June 30, 2014, and its revenues for the nine months ended June 30, 2014, were \$3,885,300. The pro forma consolidated results for fiscal year 2014, assuming the purchase had been made at the beginning of the fiscal year, would not have been materially different from reported results.

8. INCOME TAXES

OCLC has a net deferred tax asset of \$2,436,000 for operating loss carryforwards (\$411,000 domestic and \$1,935,000 foreign). The net deferred tax asset is fully offset by a valuation allowance due to the uncertainty of recoverability of these items. OCLC EMEA also has a deferred tax asset of \$184,000 and \$191,000 at June 30, 2014 and 2013, respectively, relating to the fixed asset depreciation and a prior German acquisition, which is recorded as a noncurrent asset in other assets.

OCLC EMEA also has a deferred tax liability of \$2,529,000 at June 30, 2014, relating to the acquisition of HKA, which is recorded as a noncurrent liability in other noncurrent liabilities.

At June 30, 2014, domestic and foreign net operating loss carryforwards for income tax reporting purposes are approximately \$9,065,000 (\$1,209,000 domestic and \$7,856,000 foreign, principally in the United Kingdom and Canada). The domestic and Canadian carryforwards expire through fiscal year 2034.

9. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value by providing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1 inputs") and the lowest priority to unobservable inputs ("Level 3 inputs"). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Quoted prices in active markets for identical assets

Level 2 — Other significant inputs (including quoted prices of similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 — Significant unobservable inputs (which may include OCLC's own assumptions in determining the fair value of investments)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, present OCLC's assets at fair value as of June 30, 2014 and 2013:

	Assets at Fair Value 2014			
	Quoted Prices in Active Markets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total
Mutual funds:

A------ -- Fair Value 2042

ASC 825, Financial Instruments, requires fair value disclosures about substantially all balance sheet financial instruments. Certain assets and liabilities, the most significant being fixed assets, do not meet the statement's definition of financial instruments and are excluded from this disclosure. Similarly, corporate equity is not considered a financial instrument and is also excluded from this disclosure. Many of the assets and liabilities subject to the disclosure requirements are not actively traded, requiring fair values to be estimated by management. These estimations necessarily involve the use of judgment about a variety of factors, including, but not limited to, materiality, relevancy of market prices of comparable instruments, and appropriate discount rates. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

The following methods and assumptions were used to estimate the fair value of each material class of financial instruments:

Cash and Cash Equivalents, Receivables, Accrued and Other Liabilities (Excluding Postretirement Benefit Obligations and Deferred Compensation), Long-Term Debt, and Accounts Payable — The carrying amounts of these items are a reasonable estimate of their fair values.

Investments — Investments are stated at fair value based upon quoted market prices or as calculated by third-party administrators.

The valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while OCLC believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following summarizes the nature and risk of those investments that are reported at estimated fair value utilizing net asset value as of June 30, 2014. There were no unfunded commitments at June 30, 2014.

	2014		
	Fair Value	Redemption Frequency	Redemption Notice Period
Mutual funds:			
Fixed income	\$ 57,539,400	Daily	1 Day
Equity — domestic	44,555,400	Daily	1 Day
Equity — global	62,638,200	Daily	1 Day
Alternatives	22,514,600	Daily	1 Day
Other pooled investments:			
Domestic fixed income	16,961,000	Monthly	45 Days
Emerging market fixed income	16,727,800	Daily	1 Day
Global equity	18,394,100	Daily	1–30 Days
	\$239,330,500		

Investments in these categories consist of mutual funds or commingled funds that invest in domestic equities, foreign equities, domestic fixed income, or foreign fixed income securities, in some instances using alternative investment strategies. Fair market value of the investments has been estimated using the net asset value per share of the investments.

10. CONTINGENCIES

The Corporation is involved in various claims and legal actions in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Corporation's consolidated financial statements.

11. SUBSEQUENT EVENTS

The Corporation has performed an evaluation of subsequent events through September 8, 2014, which is the date the consolidated financial statements were available to be issued, noting no events that affect the consolidated financial statements as of June 30, 2014.

* * * * * *
