

Publisher/Library Webinar: Follow-up to Symposium for Publishers and Libraries

May 5, 2009

1:00-2:00PM

EDT

A Symposium for Publishers and Librarians

Bringing together publishers and librarians to explore metadata needs and practices

A Symposium for Publishers and Librarians

- [About the Symposium](#)
- [Agenda](#)
- [Participants](#)
- [Symposium Report](#)
- [Symposium Outcomes and Next Steps](#)
- [Upcoming OCLC Events](#)
- [Further reading](#)

Webinar Attendees

- Todd Carpenter, NISO
- Ken Chad, Ken Chad Consulting
- Chris Cole, National Agricultural Library
- Kay Covert, OCLC
- Chuck Creesy, Princeton University Press
- Laura Dawson, LJNDawson.com
- Paul DeAnna, National Library of Medicine
- Magda El-Sherbini, The Ohio State University
- Ruth Fischer, R2Consulting
- Connie Harbison, Baker & Taylor
- Maureen Huss, OCLC
- Wendell Lotz, Ingram Book Group
- Judy Luther, Informed Strategies
- Brenna McLaughlin, AAUP
- Patricia Payton, Bowker
- Sandy Piver, OCLC
- Renee Register, OCLC
- James Yanchak, Taylor & Francis

Part 1: 1:00-1:30PM EDT

- Welcome - Renee Register
- Updates and reports on participant initiatives
 - Update on LC Study of Bibliographic Production - Ruth Fischer
 - Update on the OCLC/NISO sponsored study “Streamlining Metadata Workflows: Stakeholder Perspectives” - Todd Carpenter (see attachment)
 - Update on “Next Generation” cataloging project including potential applications for CIP workflow - Renee Register
 - Any other updates or news the group would like to share

Part 2: 1:30-2:00PM EDT

- “Next Steps” from the Symposium - Observations on publisher/library alignment and laying the groundwork for moving forward - Ken Chad

Part 2: 1:30-2:00PM EDT

- Identify 1-2 projects from list below to pursue in the short term.
 - Collaborative work on a data model of the chain to better understand data needs and data flow.
 - Requirements for each sector—what data elements needed for which applications/uses.
 - Expose publishers to entire value chain and evaluate data needs by community—library, vendor end users.
 - Analyze the importance of authority work in various contexts.
 - Explore possibilities for use of XML wrapper.
 - Explore subject work across communities.
 - Explore how to make salient schema available and accessible for wider use.
 - Analyze the data flows that subject metadata support.
- Plan ongoing events to continue dialogue and work.

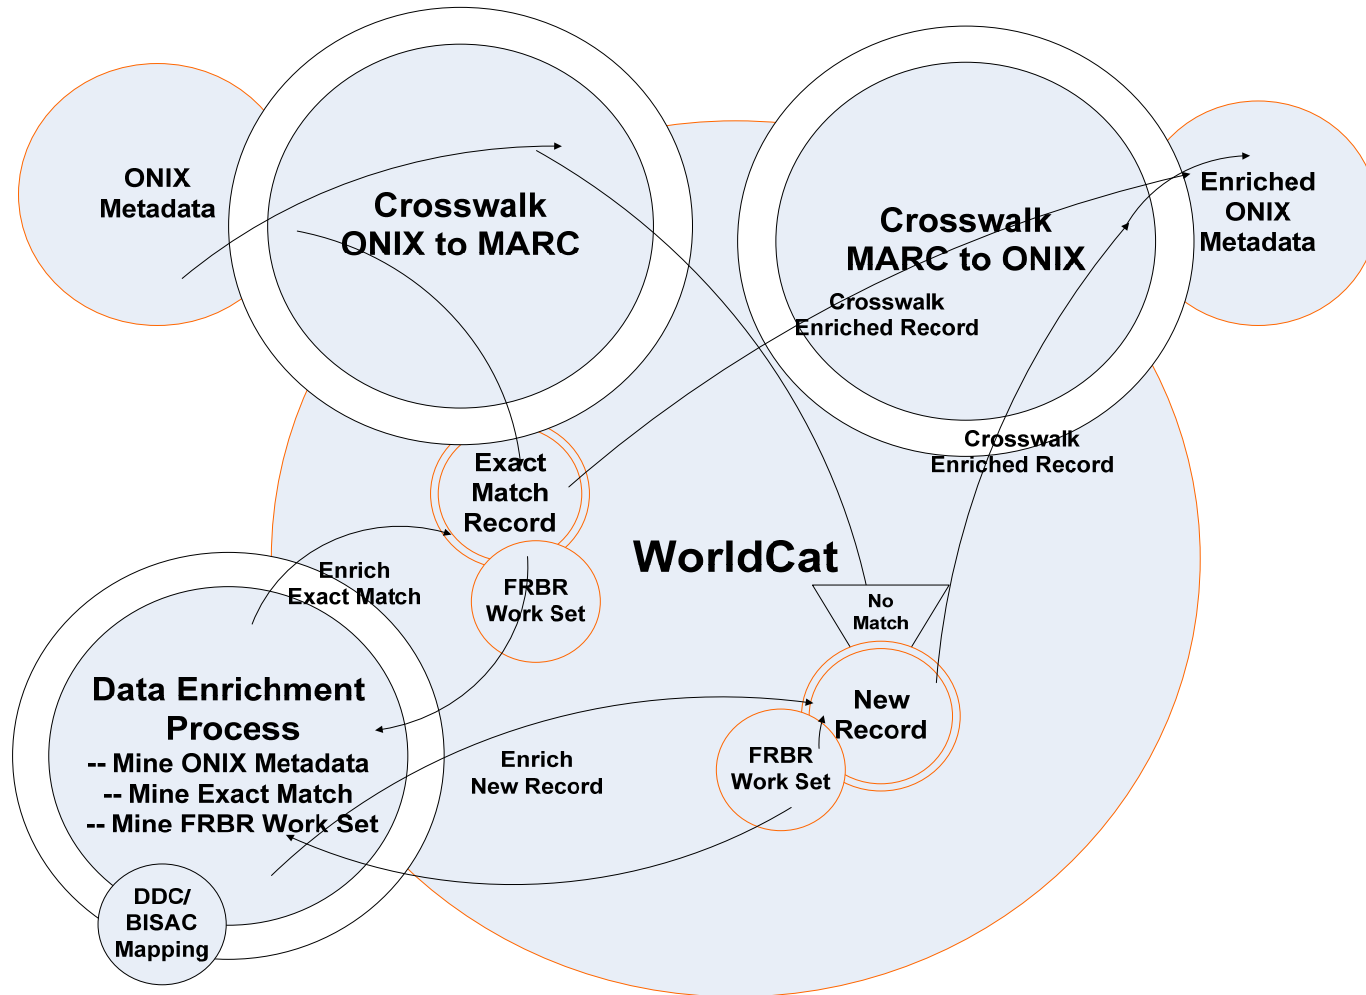

- LC Study of Bibliographic Production - Ruth Fischer
 - <http://www.loc.gov/today/pr/2009/09-011.html>

- OCLC/NISO Study - Todd Carpenter
 - Review of White Paper draft by May 15

- “Next Generation” Cataloging - Renee Register

- Other updates?

"Next Generation" Data Flow

“Next Generation” Cataloging and Metadata Creation Pilot

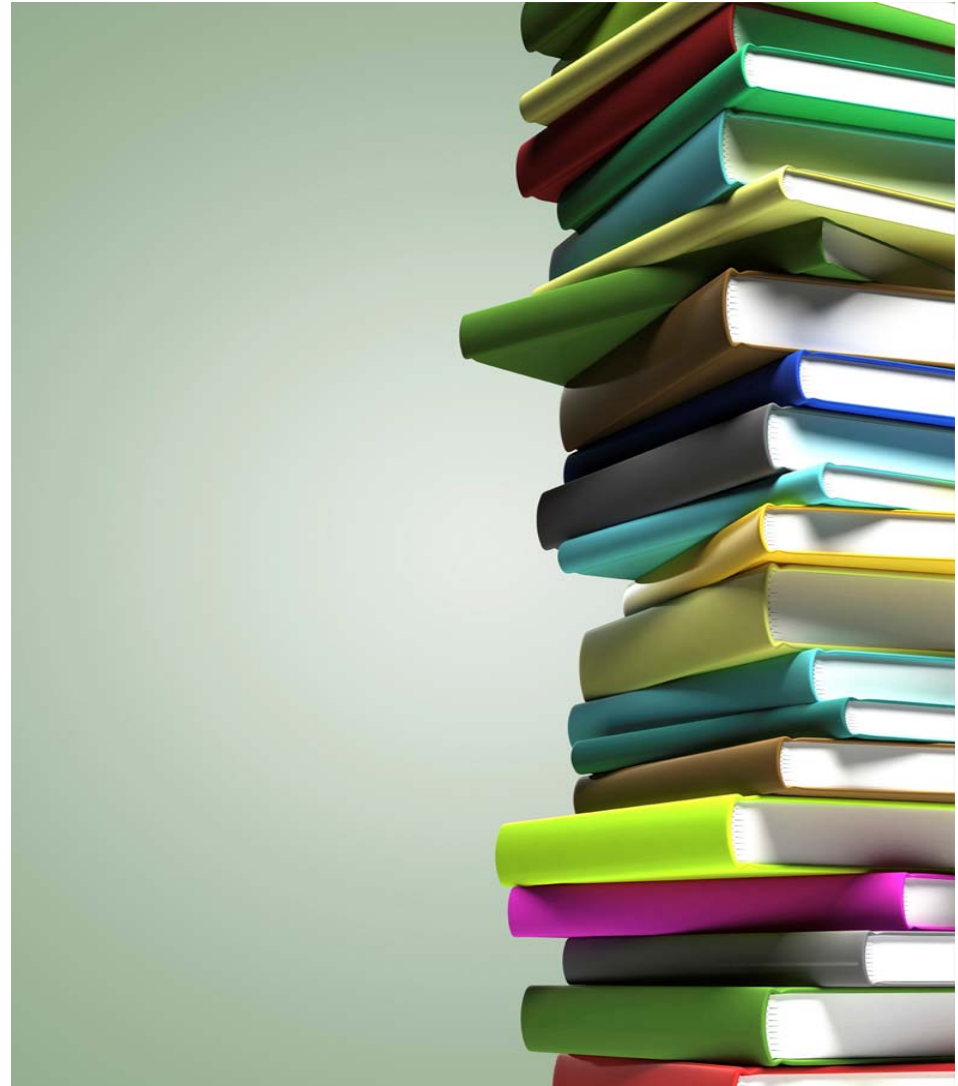

Pilot Wrap-up Spring 2009

- Complete statistical analysis and compile pilot partner evaluation results
- Complete case studies of pilot partners
- Share results with pilot partners, advisory board
- Share results with library and publisher supply chain communities

“Next Generation” Cataloging and Metadata Creation: Beyond the Pilot

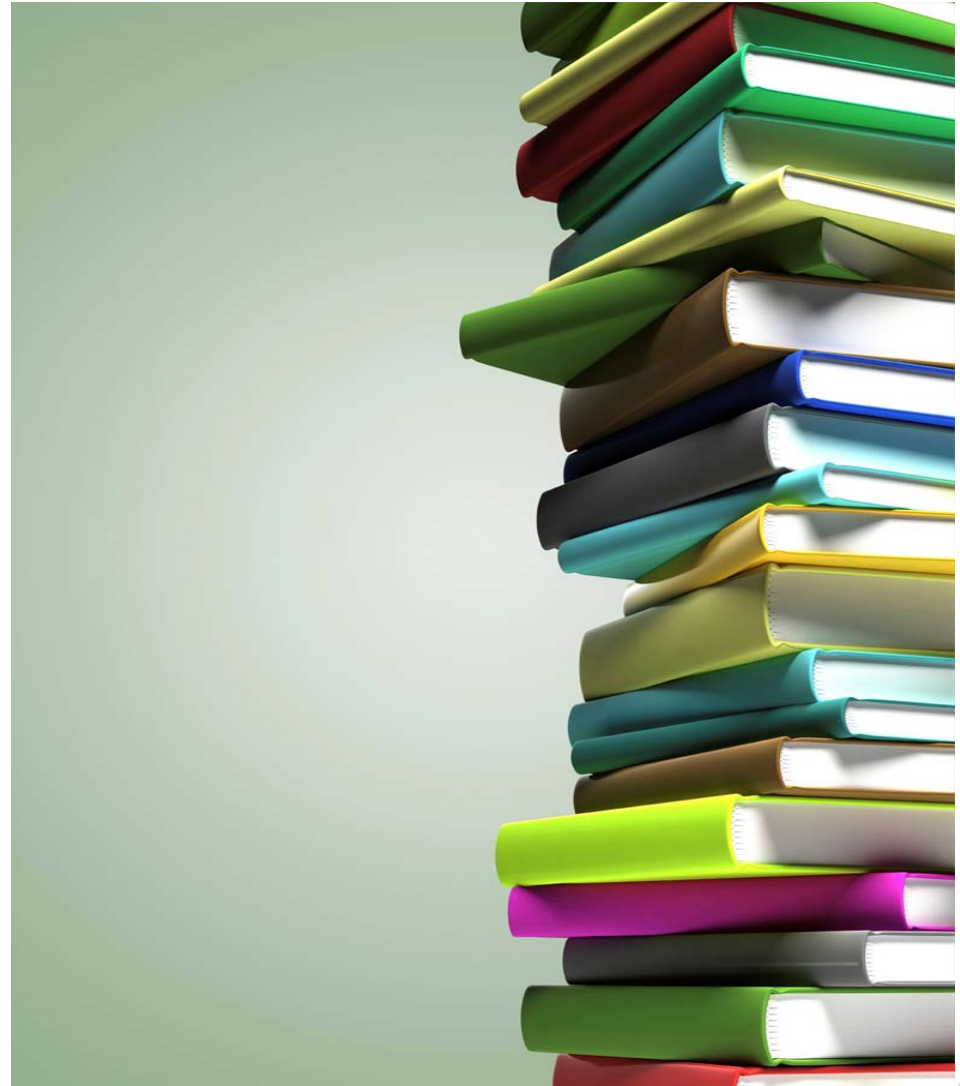

- Continue to refine enrichment of existing WorldCat records and the addition of records to WorldCat based on publisher data
- Integrate WorldCat Identities into the process
- Enhance the process based on response from library and publisher communities
- Include mechanisms for ongoing delivery of record enhancements to libraries and publishers

“Next Generation” Cataloging and Metadata Creation: Coming Soon

- “Productionize” the process so that it can be used routinely to ingest, create and enhance metadata in WorldCat and output enhanced data in MARC and ONIX. Service update at BEA. Full service launch by ALA Annual in July.
- OCLC Website for Publishers Coming May 29.
- July-December 2009 - Incorporate WC Identities; Add additional mappings between classification schema and terminologies.

Part 2: 1:30-2:00PM EDT

- “Next Steps” from the Symposium - Observations on publisher/library alignment and laying the groundwork for moving forward - Ken Chad

Part 2

- Identify 1-2 projects from list below to pursue in the short term.
 - Collaborative work on a data model of the chain to better understand data needs and data flow.
 - Requirements for each sector—what data elements needed for which applications/uses.
 - Expose publishers to entire value chain and evaluate data needs by community—library, vendor end users.
 - Analyze the importance of authority work in various contexts.
 - Explore possibilities for use of XML wrapper.
 - Explore subject work across communities.
 - Explore how to make salient schema available and accessible for wider use.
 - Analyze the data flows that subject metadata support.
- Plan ongoing events to continue dialogue and work.

Next Webinar? Next Symposium?

Thank You!
