

# OCLC Digital Forum East

## Summation

# What does Convergence mean for users and our organizations?

Clearly a new convergence of contributors, content specialists and end-users

An increase in discovery and delivery of digital collections

Participation from Museum, Archives and Libraries - users don't differentiate

# Learners as Explorers

Patricia Norris

# “Not your typical tagger”

Susan Chun

# “Not your typical tagger”

Martin Kalfatovic

# Future directions, integration of metadata workflow & data

## Taylor Surface

Magnify value of records when you synchronize metadata with WorldCat

End-users can search, discover, and retrieve digital content from WorldCat

Digital Collection Gateway allows you to go from local to world-wide!

# Social software in digital libraries and archives
