

Exploring the opportunity space for a Collection Wall

Alice Bodanzky – LLC project manager
Delft University of Technology

October 2024

TU Delft Library

Largest technical scientific library in the Netherlands
Built in 1997, designed by Mecanoo

15,000 m² | 1250 study places
8,000-10,000 weekly visitors

Book wall
Approx. 23.000 books

Collection Wall project
Exploring the opportunity space

Collection Wall

Experience goals

**Bring visibility
to collections
beyond
physical books**

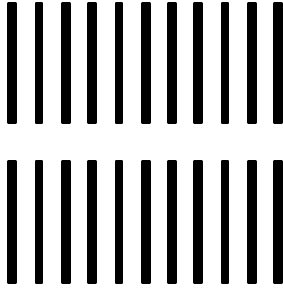

Users become more aware of TU Delft's rich and vast collections.

**Inspire
exploration,
enquiry and
serendipity**

Users make new connections within the realm of their studies and research.

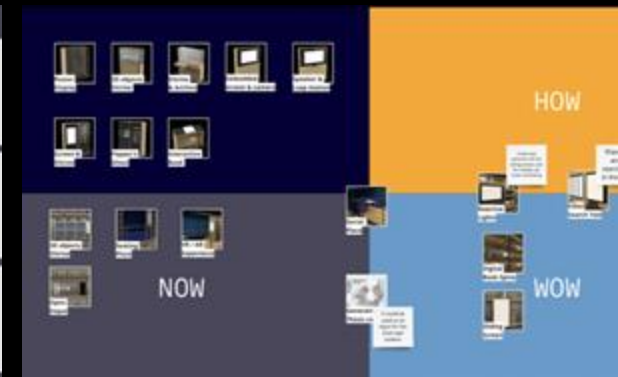

**Enable
collaboration,
interaction,
contribution**

Users activate collections, create narratives and become part of the discourse.

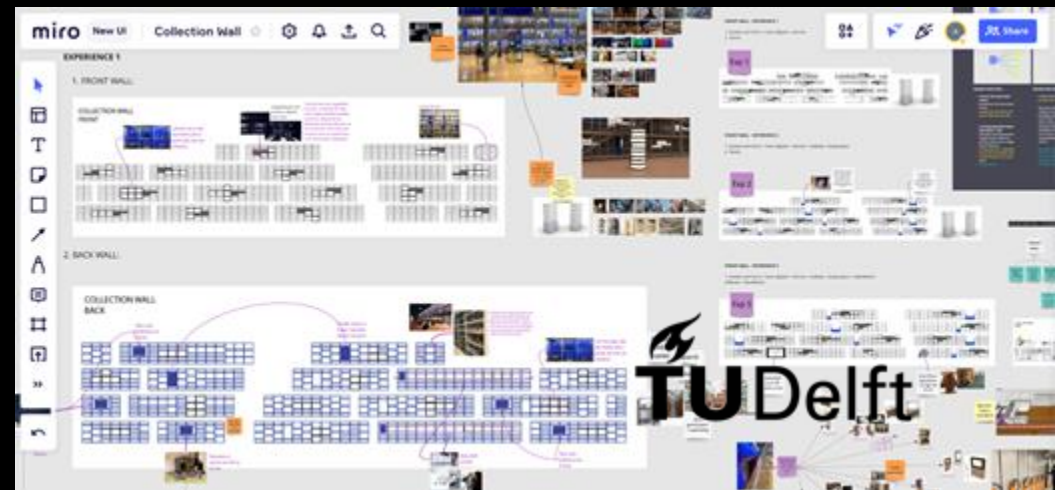

Collection Wall Experience

Collection Wall process

Future Libraries Lab (IDE)

Advanced Prototyping Minor

Interactive Environments Minor

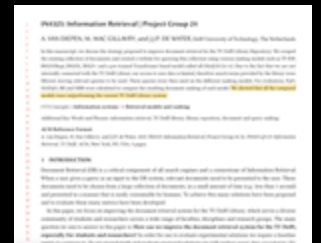

Service Design (IDE)

Natural Language Processing (EWI)

Information Retrieval (EWI)
