

WHAT'S INCLUDED

WMS includes everything you need to run your library

WorldShare Management Services (WMS) goes well beyond a traditional ILS by giving you a wide range of additional features at no extra charge. When your library's management system includes everything your staff and users need, you can focus on **making breakthroughs possible.**

Traditional ILS applications you expect

WMS supports all departments in your library with the basic tools that you need from an ILS.

- End-user search interface
- Acquisitions
- Circulation
- Cataloging
- Interlibrary loan
- Room and item scheduling
- Reporting
- Serials management

Additional services to help you excel

Beyond traditional applications, WMS, a cloud-based library services platform, includes many additional features at no additional charge.

With WorldCat® data as its foundation, WMS lets you dramatically reduce the time it takes to do routine tasks, such as managing e-resources and demand-driven acquisition (DDA) collections. WMS also expands your library's collection by allowing your users to do a single search across all your item formats, extend their search across libraries worldwide, and find open content as well as resources in a central index of more than 2,700 e-collections.

In addition, you can participate in the OCLC Community Center to share best practices and enhancement suggestions. And OCLC Support provides continuous free training to help you keep up with WMS's ongoing updates, which are directed by your feedback.

WorldShare Management Services is a cloud-based library services platform that saves you time and money by helping you easily manage library resources in all formats. With WorldCat as its foundation, WorldShare Management Services enables you to draw on the collaborative data and work of libraries worldwide for more efficient workflows.

Exceed user and staff expectations with WMS's all-inclusive features.

DISCOVERY

- Searching across all formats—electronic, physical, and digital—and across libraries worldwide
- An adaptive user interface for phones, tablets, and laptops
- Cover art
- Course reserves
- A content-neutral central index with more than 2,700 e-collections
- A FirstSearch®/WorldCat Discovery subscription that enables exposure of your holdings through WorldCat.org™ from major search engines and popular websites

E-RESOURCE MANAGEMENT

- Access to the WorldCat knowledge base
- More than 400 open collections
- Automated updating of e-resource records
- An OpenURL resolver
- An A-to-Z list
- Full support of DDA programs
