2009 France joined WorldCat

Bibliothèque nationale de France to add records to WorldCat

Press Release: OCLC [June 12, 2009]

Copyright (c) 2009 OCLC

Abstract: OCLC and the Bibliothèque nationale de France signed an agreement to work cooperatively to add records from the French national library to OCLC WorldCat, the world’s largest online resource for finding information in libraries. The Bibliothèque nationale de France and OCLC signed the agreement in Paris, setting in motion plans for OCLC to process an estimated 13.2 million bibliographic records from the Bibliothèque nationale de France. Once records are added to WorldCat, they will be more visible and accessible to Web users worldwide through WorldCat.org, the destination for search and discovery of library materials on the Web.

ABES to add French Sudoc records to WorldCat

Press Release: OCLC [September 21, 2009]

Copyright (c) 2009 OCLC

Abstract: OCLC and ABES (l’Agence Bibliographique de l’Enseignement Supérieur), in France, have signed an agreement to load 9 million records from Système Universitaire de documentation (Sudoc), the cataloguing system for French academic libraries managed by ABES, into WorldCat, the largest global online resource for finding information in libraries. As a result of this agreement, collections of 110 participating Sudoc institutions that represent over 1,000 libraries will be visible to searchers worldwide through WorldCat.org.
Abes as a hub for French Higher Education

Libraries in WorldCat
+3000 Libraries + 1 Abes = Sudoc : national union catalogue + registry

1 500 Univ. Libraries – all types of documents
1 700 Public and Special Libraries - serials

17 000 000 Bibliographic records
4 000 000 Authority records
44 000 000 Items

1 Abes

29.4 millions searches from 50 countries
One can see every record in Sudoc from all over the world

- In the Catalogue collectif de France
- Through Google
Sudoc is partly visible in Worldcat

Every member library of Sudoc or Sudoc-PS has the right to grab records from WorldCat with the WinIBW Software

For every subscribing library, ABES send to WorldCat bibliographic records when an item is attached, and its library record (registry)

Libraries subscribing to Worldshare ILL can send holdings directly to WorldCat
The state of French libraries in WorldCat
When we talk about figures, we need a reference
Yet, not all French libraries are in WorldCat registry: ± 2,000 Lib

- Academic = 1,494
- Govt = 22 (incl. BnF*)
- Public = 70 (incl. BPI **)
- Others = 500

Bibliographic records & holdings:

- 35,000,000 Records
- 71,000,000 Holdings
France in WorldCat: there is still high potential
Information level: Registry vs Sudoc

Towards an enriched Worldcat (1)

1. A common analysis of the exchange processes could open the way to a major improvement in quality and accuracy of French libraries and bibliographic data in WorldCat

2. Especially regarding the
   • number of records
   • level of information
   • accuracy of geographic data
   • removing of inaccurate data
Towards an enriched Worldcat (2)

3. A global agreement between BnF + Abes + OCLC could lead to the loading of the whole French data in Worldcat, including library records and bibliographic records.

4. This could lead to a better
   • Access to documents and collection
   • International Interlibrary Loan

5. New features and services based on high quality and comprehensive data could be invented and thus increase the visibility and usefulness of our libraries.
