

561 Paleobotany; fossil microorganisms

Standard subdivisions are added for paleobotany and fossil microorganisms together, for paleobotany alone

Including plantlike fossils of uncertain taxonomic position

Class here fossil Spermatophyta; taxonomic paleobotany

Class fernlike fossils of uncertain taxonomic position in 561.597

.3 Fossil eudicots and fossil Ceratophyllales

Standard subdivisions are added for fossil eudicots and fossil Ceratophyllales together, for fossil eudicots alone

Class here fossil angiosperms, fossil core eudicots, fossil flowering plants

For fossil monocots, fossil basal angiosperms, fossil Chloranthales, fossil magnoliids, see 561.4

.4 Fossil monocots, fossil basal angiosperms, fossil Chloranthales, fossil magnoliids

Standard subdivisions are added for fossil monocots, fossil basal angiosperms, fossil Chloranthales, fossil magnoliids together; for fossil monocots alone
