

628 Sanitary engineering

Class here environmental engineering (environmental health engineering, environmental protection engineering), green technology (environmental technology), municipal engineering, public sanitation technology, sustainable engineering (sustainable technology)

Class interdisciplinary works on sustainability in 304.2; class interdisciplinary works on environmental protection in 363.7

For military sanitary engineering, see 623.75; for plumbing, see 696.1. For a specific aspect of municipal engineering not provided for here, see the aspect, e.g., road and street engineering 625.7, laying gas pipelines 665.744; for a specific social aspect of environmental engineering, green technology, sustainable engineering, see the aspect in 300, without use of notation 0286 from Table 1, e.g., economics of sustainable development through use of green technology 338.927; for a specific technology aspect of environmental engineering, green technology, sustainable engineering not provided for here, see the aspect, plus notation 0286 from Table 1, e.g., green technology in electronic circuits 621.38150286, green technology in fashion design 746.920286

See Manual at 300 vs. 600; also at 363 vs. 302–307, 333.7, 570–590, 600
