ILLiad Roadmap Priorities

INCREASED FLEXIBILITY WITH DECISION MAKING INFORMATION

To increase the amount of information displayed automatically from varied sources to enable the ILLiad user to make better processing decisions

ACCESSIBILITY AND SECURITY

To keep ILLiad current with evolving accessibility and security standards

SYSTEMS INTEGRATION

To update and keep current interfaces with external systems like Rapid, Docline, ISO, etc.

INCREASED WORKFLOW EFFICIENCY

To streamline and automate processing in ILLiad to help staff save time and better serve their customers

Planned In Progress Completed Postponed

ILLiad 9.1 - August 2019

> **These release notes describe functionality that may not have been released yet.** To see when this functionality is planned to release, please review **What's new and planned for ILLiad**. Delivery timelines and projected functionality may change or may not ship.

The ILLiad patron web interface will get a makeover to comply with Section 508 and the Web Content Accessibility Guidelines (WCAG). The first thing users will notice is the modern streamlined look.

Features

- **Includes WCAG 2.1**: Makes ILLiad web content more accessible
- **Responsive**: Better support for mobile devices and varied desktop configurations
- **Updated look**: Newly designed with a modern style based on Bootstrap
- **Enhanced patron experience**: easier to understand interfaces and navigation
