Services/Interlibrary Loan Librarian

Daemen College
Research and Information Commons

- Amherst, NY
- Enrollment is 2,500 students
- Digby Inventory assists with finding call number issues with books

Integration with Circulation in WMS

- When a loan is being processed, the item is checked out to Circulation account when updated to shipped.

- ILL number can be used as barcode for checkout.

- When a loan is returned, the item is checked in from both Tipasa and Circulation when request is completed

- No longer have to check item out in both Tipasa and Circulation.

Loans coming in for our patrons:
- When returned, we scan the return in Tipasa

OCLC

Loans coming in for our patrons:

- Item is updated to returned in Tipasa and is checked in at Circulation when item is updated to returned, no longer have to check the book in in both places.

Loans going out to other libraries
- Barcode of book is scanned before request is updated to shipped.

Loans going out to other libraries:
- When updated to shipped, item is also checked out to Circulation account.

In closing…

- Circulation integration eliminates the need to check book in and out of two different modules.

- Reduces errors of student workers, spend less time checking shelves for books that were returned, but not checked in properly
