WorldCat Discovery: Open Access filter

The image shows a screenshot of the WorldCat Discovery filter interface. It is divided into two main sections: 'Format' and 'Content Type'. In the 'Format' section, there are links for 'All' and 'Article (149)'. Below these are three checkboxes: 'Article, Chapter (598)', 'Downloadable Article (459)', and 'Article (149)'. The 'Content Type' section is circled in red and contains three checkboxes: 'Full Text', 'Open Access' (which is checked), and 'Peer Reviewed (354)'.

^ Format

[All](#)
[Article \(149\)](#)

^ ☐ Article, Chapter (598)
☐ Downloadable Article (459)
☐ Article (149)

^ Content Type

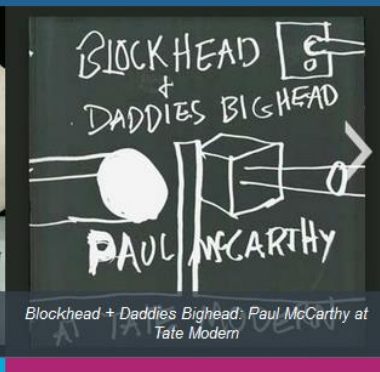

☐ Full Text
☒ Open Access
☐ Peer Reviewed (354)

- ✓ **Use filter in Advanced Search**
- ✓ **Limit search results to:**
 - Central index collections
(See <https://oc.lc/discovery-oa>)
 - WorldCat records that indicate open access
- ✓ **Configure searching in OCLC Service Configuration**

WorldCat is a community-built database with more than **512 million items** and **3 billion holdings**—and growing all the time! It represents the collections of thousands of libraries globally and is unlike any other database in the world.

WorldCat is filled with **millions of popular and unique items.**

The diagram features a central white circle with a blue outline. Four blue lines radiate from the right side of this circle, connecting it to four separate blue rectangular boxes arranged vertically on the right. Each box contains a bold title and a descriptive sentence.
