

SCHEDULE 3 **WorldCat Discovery Services**

DESCRIPTION

WorldCat Discovery Services is a suite of cloud-based applications that enable people to search WorldCat® and discover more than 2 billion electronic, digital and physical holdings in a single search.

Additional Terms and Conditions:

All capitalized terms not defined herein shall have the same meaning ascribed to them in the Master Services Agreement.

1) Discovery Service:

- a. The Bibliographic Data, Holdings Data, OCLC and/or 3rd party databases and other content available through the Service may change from time to time and are subject to OCLC and/or third-party claims of copyright and other rights and may be subject to supplemental terms and conditions. The Product Description, documentation, features and/or functionality of the Service, and/or the WorldCat.org service may also change from time to time. In the event any such change materially reduces Institution's rights with respect to the Service or the WorldCat.org services Institution may terminate this Schedule by providing written notice to OCLC. Certain databases may only be accessed if Institution subscribes to that database through a third party.
- b. Bibliographic Data may not be stored other than temporarily as required for use authorized by the Agreement and shall not be otherwise transferred, or accessed by any other person not an Authorized User.
- c. Use of the Service for cataloging purposes is expressly prohibited. Institution may not resell the Service or the Bibliographic Data or other content accessible through the Service.
- d. Certain parts of the Service function properly only when interacting with a local library system which is compatible with and supported by the Service. A list of local library systems which are compatible with and supported by the Service is available from OCLC. Prior to placing its order, Institution should verify that its local library system is compatible with and supported by the Service.
- e. In the event Institution's local library system is or becomes incompatible with or unsupported by the Service at any time during the term of this Agreement OCLC may if requested by Institution make reasonable efforts to resolve the issue at OCLC's then current rates. If such efforts are unsuccessful OCLC or Institution may terminate this Schedule upon written notice to the other party.

2) Third Party Database Terms:

- a. **British Library Database.** Bibliographic Data made available from the British Library is licensed solely for non-commercial use. For the purpose of this Section "Non-Commercial Use" means internal or personal use solely for the purpose of resource discovery, learning, teaching, academic, or scientific research, private study, verification of bibliographic information, and/or the identification of materials to be ordered via interlibrary loan, from document vendors, or from other sources from which materials may be acquired, and specifically excludes transmission, selling on, redistribution or circulation of any form outside of Institution's organization or use in violation of the Agreement.
- b. **National Library of Medicine (NLM Database).** Organizations or institutions may download NLM-produced citations and reuse these records within their organization or institution. NLM suggests that organizations limit the number of records to 1,000 per month. Since NLM makes corrections and enhancements to and performs maintenance on these records at least annually, you should plan to replace or correct the records once a year to ensure that they are still correct and searchable as a group.
NLM databases are produced by a U.S. government agency and as such the contents are not covered by copyright domestically. They may be copyrighted outside the U.S. Some NLM produced data is from copyrighted publications of the respective copyright claimants. Users of the NLM databases are solely responsible for compliance with any copyright restrictions and are referred to the publication data appearing in the bibliographic citations, as well as to the copyright notices appearing in the original publications, all of which are incorporated by reference. Users should consult legal counsel before using NLM-produced records to be certain that their plans are in compliance with appropriate laws.
