

Use WorldCat Discovery to find more than four billion library resources

Explore the resources of your library and the world's libraries

Find electronic, digital, and physical resources in libraries around the world with a single search of WorldCat and a central index that represents 4,283,929,729 records in more than 3,100 e-content collections.

Inside WorldCat Discovery

As of 31 March 2021

Building partnerships on behalf of libraries

Every member benefits from the combined purchasing and licensing power of the cooperative. Working together, our members are able to provide better service for library users everywhere.

OCLC works with more than 360 publishers and content partners from around the world to increase the volume of materials that member libraries can share with users. These relationships let WorldCat Discovery libraries provide access to content and collections from publishers, content from e-book aggregators, large mass-digitization collections, and content partner records that are made available through WorldCat.

See the full list of searchable e-content collections: oclc.org/indexDiscovery.
