[Article] **BIOFUELING Water Problems**
The article reports on the possible effects of corn-based ethanol production on water quality in the U.S. It is stated that the U.S. Department of Agriculture recently forecast the largest corn crop ever this year with 13.3 billion bushels.
NOV, 2007 *Environmental Science & Technology*
[Citation](#) [Save This Item](#) [more from 'EBSCOHost Business Source Premier'](#)

[Article] **ETHANOL LINKED TO WATER PROBLEMS**
The article discusses the National Research Council's report which indicated that increased production of ethanol from corn kernels will likely degrade the water quality and lower water supplies in the United States. The report found that ethanol production will increase water demand and reduce water availability in the United States.
OCT, 2007 *Chemical & Engineering News*

[Article] **A Hybrid Artificial Neural Network-Numerical Model for Ground Water Problems**
Numerical models constitute the most advanced physical-based methods for modeling complex ground water systems. Spatial and/or temporal variability of aquifer parameters, boundary conditions, and initial conditions (for transient flow) are often modeled using numerical models.
SEP, 2007 *Ground Water*

[Article] **BIOFUELING Water Problems**
The article reports on the possible effects of corn-based ethanol production on water quality in the U.S. It is stated that the U.S. Department of Agriculture recently forecast the largest corn crop ever this year with 13.3 billion bushels.

(some user-noticed)

LibraryFind Features

- Two-click workflow
- Facets for browsing / limiting
- Ability to sort by relevance or date
- Breadcrumb trail
- Quick citation information
- Link to resource collection

(some under-the-hood)

LibraryFind Features

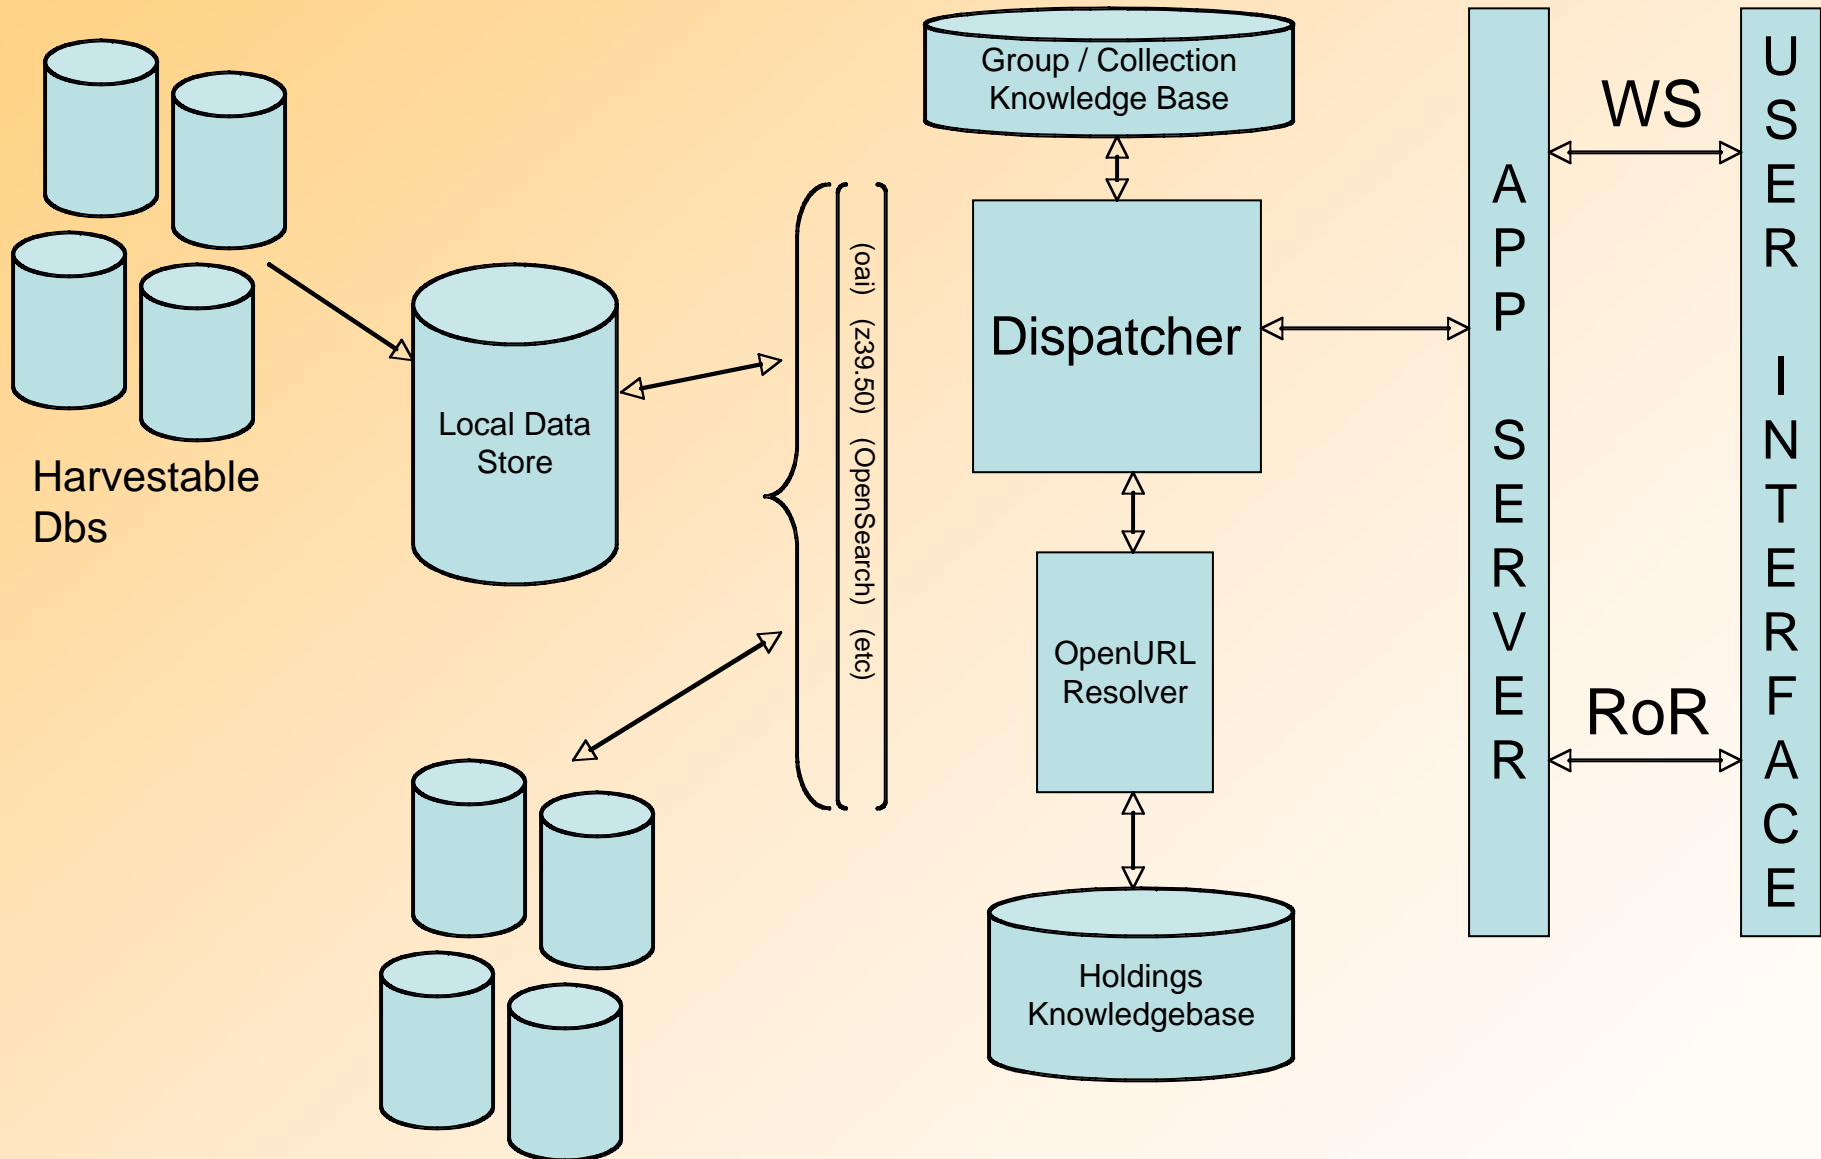

- “Look-ahead” OpenURL resolution
- Smart ILL link display
- Dynamic, on-the-fly facet creation
- Extensively user-tested user interface
- Search caching
- Ability to locally index harvestable collections

some more under-the-hood,

LibraryFind Features

- Extensible, customizable (XML-backend)
- Web-based administration
- COinS support
- Open Source
