& Standards

Supporting
New
Modes
of
Scholarship

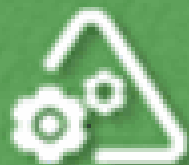

Measurements
& Behaviors

Managing the Collective Collection

Goal: ...understanding, preparing for, and executing more profoundly cooperative models of acquiring, managing and disclosing collections.

Modeling New Service Infrastructure

Goal: ...model and enable news ways of working through gathering requirements and specifications and building prototypes and software.

Supporting New Modes of Scholarship

Goal: ...reaching a collective understanding of their responsibilities and opportunities in a changed research support infrastructure

Renovating Descriptive & Organizing Practices

Goal: ...adapting descriptive practices to economic realities, user expectations, and requirements of network-level services.
