

CONTENTdm® Flex Loader Version 6.2 RELEASE NOTES

This file contains a list of fixed bugs, known issues, and troubleshooting information. Please refer to the User Support Center for installation instructions and other product information.

6.2 FIXED BUGS

CDM-8584	Uploads to CONTENTdm Hosted do not work (CDM-8584)
CDM-4248	Words in METS ALTO OCR data are omitted from the full text search field. (CDM-4248)
CDM-4777	When using the CCS_Newspaper format, articles contained within sections on a single page do not highlight individually in the image viewer. (CDM-4777)

6.2 KNOWN ISSUES (cumulative since 5.4)

CDM-4018	ALTO schema version 2.0 is not currently supported. For a workaround, see the Support FAQ: http://www.contentdm.org/USC/kbase/faq/260.php (CDM-4018)
CDM-5067	When using the CCS_Newspaper format, articles contained within sections that span multiple pages do not highlight individually in the image viewer. (CDM-5067)

TROUBLESHOOTING

Please refer to the FAQ section in the Getting Started Guide available on the User Support Center.

For additional assistance, send email to contentdmsupport@oclc.org or call 1-877-797-0887.
